United Nations TD/B/61/10/Corr.1

United Nations Conference on Trade and Development

Distr.: General
3 November 2014

Original: English

Trade and Development Board
Sixty-first session
Geneva, 15–26 September 2014

Report of the Trade and Development Board on its sixty-first session

Held at the Palais des Nations, Geneva, from 15 to 26 September 2014

Report to the United Nations General Assembly

Corrigendum

1. **Paragraph 128**

For the existing text *substitute*

128. The representatives of many regional groups and delegations expressed deep regret that they had not been able to obtain consensus on the text of the draft agreed conclusions for agenda item 6, owing to some points of contention, among others the reference to enhanced market access for Africa. The representative of one regional group noted in this regard that the issue of market access was strongly advocated in the *Economic Development for Africa Report 2014*, discussed under the agenda item, and included in the outcomes of other international forums and in discussions on the sustainable development goals. Therefore, it was asserted that the issue of market access and trade was relevant to the work of UNCTAD. The representative of another group reiterated that the introduction of wording on market access was new text which her delegation could not accept and that it was in a context that differed from its original inclusion in the discussions of agenda item 6.

2. **Paragraph 129**

For the existing text *substitute*

129. The representative of one group, supported by another group, expressed regret that the Board had been unable to adopt a stand-alone decision on agenda item 12 (a), as one group had declared that it could not align itself with a decision on the agenda item. Groups expressed support for the elements identified by the President of the Board.
